EDUCATION

BE Lateral Entry - CSE (Cyber Security)

2025 - 2028 | SKCET, Coimbatore

3rd Year | 5th Sem

CGPA: 7.4

Diploma CSE

2023 - 2025 | M.S.P.V.N.L.T Polytechnic

Status: Lateral Entry

Percentage: 89%

12th Standard

2022 - 2023 | Andrews Mat. Hr. Sec.

Percentage: 72%

10th Standard

2020 - 2021 | Andrews Mat. Hr. Sec.

Status: COVID Passed out

SKILLS

Cybersecurity & Network

Ethical Hacking Tools, SOC Basics, Threat Analysis, Forensics, Linux (Red Hat).

Cloud & Systems

AWS, Virtualization, Python, Java, Docker.

Development

HTML, CSS, JavaScript, React.js, Vite, Spring Boot, REST APIs, MySQL, SQL, UI/UX, App Development.

Emerging Tech & IoT

Internet of Things (IoT), Machine Learning, Data Science, AI, VR.

SUMMARY

A motivated Computer Science Engineering student specializing in Cyber Security and software development. Hands-on project experience across SOC monitoring, AI-assisted risk analysis, smart agriculture, and e-commerce. Interested in building secure, practical applications that combine full-stack development, backend APIs, data analysis, and automation.

PROJECTS

Nexus SOC Platform

Designed a unified Security Operations Center dashboard combining vulnerability scanning, threat intelligence, firewall controls, IoT discovery, and dark-web monitoring for centralized security visibility.

TECH Python backend, web technologies, security monitoring, dashboard visualization

MPLAD AI Risk & Anomaly Intelligence System | SIH

Built a decision-support platform to review public development works using risk scoring, cost-deviation checks, duplicate-transaction detection, Isolation Forest anomaly detection, and downloadable inspection reports.

TECH React, Vite, Tailwind CSS, FastAPI, Python, SQLite, scikit-learn, Pandas, NumPy

AgriLoop 360 - Smart Agriculture Platform

Created an agriculture dashboard for water and soil monitoring, fertilizer optimization, crop management, composting, food-storage alerts, and simulated sensor telemetry.

TECH React, Vite, Java, Spring Boot, Spring Data JPA, MySQL, REST APIs

Made In Veedu - E-commerce Platform

Developed an online storefront for organic masalas, health mixes, and traditional snacks with product browsing, cart and order workflows, JWT authentication, email notifications, and AI-assisted recommendations.

TECH React, Vite, Spring Boot, Spring Security, JWT, FastAPI, scikit-learn, MySQL, Docker Compose

CERTIFICATIONS

- **AWS Educate Badges:** Cloud 101, Compute, Networking, Security, Storage.
- **Red Hat:** System Administration Training Certification.
- **Cybersecurity:** Ethical Hacking 101: Beginners Guide.
- **Data Science:** Machine Learning using Python.

ACHIEVEMENTS & INTERESTS

Hackathon Participant - Kriya Event

PSG Tech College

Participated in Ideathon and Hackathon challenges, applying logical thinking and problem-solving skills.

Interests: Security Operations, Offensive Security, Network Security, Software/Web/App Development.
